

# Final Thesis/Project Presentation Guidelines

Department of Electrical and Electronic  
Engineering (EEE)

International Islamic University Chittagong (IIUC)

# Welcome to the Final Thesis/Project Presentation

- Purpose: To ensure clarity, professionalism, and smooth execution of the presentations.
- Reminder: This presentation covers the essential guidelines and expectations for the day.

# Be On Time

- • Arrive 15 minutes before your scheduled presentation time.
- • Late arrivals may result in disqualification or penalties.
- • Ensure all setup (hardware, slides, etc.) is ready before your turn.

# Timing Breakdown

- • Presentation Time: 10 minutes
- • Question & Answer Session: 5 minutes
- • Total: 15 minutes per student/project group.
- • Exceeding the time limit may affect your marks.

# Show Your Work!

- • Hardware demonstration is mandatory where applicable.
- • Prepare your hardware and verify functionality before your presentation.
- • Make sure all connections are secure and equipment is ready to avoid delays.

# Crafting Your Presentation

- • Use clear, high-quality figures and diagrams to explain your work.
- • Avoid lengthy paragraphs; use short, bullet-point text.
- • Follow a logical structure:
  - - Introduction
  - - Problem Statement
  - - Proposed Solution
  - - Methodology
  - - Results
  - - Conclusion
- • Use professional slide templates.
- • Ensure text is legible (minimum font size: 20).

# Professional Appearance

- • Male Students: Decent outfit.
- • Female Students:
  - - Modest formal attire with proper hijab
  - - Avoid bright or flashy colors.
- • Overall: Ensure neat and tidy presentation.

# Before Your Presentation

- • Bring all required materials (hardware, laptop, pen drive, etc.).
- • Double-check your slides for errors and flow and submit to the given link beforehand.
- • Practice timing your presentation to fit within 10 minutes.
- • Inform the committee of any technical requirements in advance.

# How You'll Be Assessed

- • Content Quality: Depth, accuracy, and relevance
- • Presentation Skills: Clarity, confidence, and engagement
- • Q&A Performance: Ability to answer questions effectively
- • Hardware Demonstration: Functionality and innovation

# Need Help?

- • Contact your supervisor for guidance on corrections.
- • Reach out to the Thesis/Project Committee for any clarification.
